

OSET

TECH BULLETIN

BATTERY ISSUE:

It has come to our attention that some customers are under the impression that it is good to run the SLA batteries that come standard on an OSET Bike right down.

This is not the case. Batteries should be recharged *as soon as* performance is affected and *ALWAYS* recharge after use.

Please ensure the bike and batteries are stored *FULLY CHARGED*.

If leaving the bike stored for long periods of time- recharge *ONCE A MONTH*.

REGARDS,
OSET TECH SUPPORT
