

Rim sticker fitment guide

12.5R

Stickers supplied in the package are the same for both wheels. Attach the first sticker and butt the next up to it until the fourth sticker covers the rim side wall.

16.0R

Stickers supplied in the package are the same for both wheels. Attach the first sticker and butt the next up to it until the fourth sticker covers the rim side wall.

20.0Lite

The 20.0 Lite's front rim is slightly larger; please use the rim stickers marked with the model name '20.0 Lite' on the front wheel only. The remaining stickers with no model name are for the rear wheel. Stickers should all butt up to each other as described for the 12.5R

20.0R

The 20.0R's competition rear wheel rim is slightly smaller than the front; please use the rim stickers marked with the model name '20.0R' on the front wheel only. The remaining stickers with no model name are for the rear wheel. Stickers should all butt up to each other as described for the 12.5R.

If you have any queries or difficulties attaching the stickers please don't hesitate to contact our technical team on: 0843 289 2890
