

2015 BIKE IMPROVEMENTS

OSET 12.5 ECO:

- Completely new tubular steel frame design.
- Improved front suspension with more travel.
- Greatly uprated larger rear shock with more travel.
- New hubs with stainless steel spokes and better quality rim.
- OSET designed 600w motor which is more efficient and better quality.
- #25 narrow chain and sprockets. Rear is now bolt on so it is easier to change.
- 2x12v 10Ah batteries. Larger capacity= more run time.
- 2 dial controller can now adjust speed and throttle response which give a much smoother ride.
- Dials accessible through OSET tank bung for easy adjustment, new dial knobs make it clearer to see what setting the bike is on.
- Front V-brake and rear drum brake.
- Steel OSET handlebars.
- Lightweight OSET footpegs.
- Improved battery fixing method. No need for a battery bag.
- Infill side panels to protect batteries and electrics.
- Improved front mudguard which is flexible plastic.
- Handlebar switch for a quicker shut down of the bike.
- Charge port moved to make it easily accessible.
- All new plastics and 2015 stickers.
- For ages 2-5 year olds.
- RRP £849 (*Only £50 increase on the old model*)
